

Perimeter of a rectangle $=$
length + width + length + width
Perimeter of a rectangle $=$
length + width + length + width

$$
\begin{aligned}
& 10 \mathrm{~mm}=1 \mathrm{~cm} \\
& 100 \mathrm{~cm}=1 \mathrm{~m} \\
& 1,000 \mathrm{~m}=1 \mathrm{~km}
\end{aligned}
$$

Rectilinear Shapes

Find the total of all of the sides using addition
$\left.\begin{array}{|l|l|}\hline \text { centimetre } & \begin{array}{l}\text { A measure of length } \\ \text { (approximately the } \\ \text { width of a fingernail) }\end{array} \\ \hline \text { metre } & \begin{array}{l}\text { A measure of length } \\ \text { (a guitar is } \\ \text { approximately 1m in } \\ \text { length) }\end{array} \\ \hline \text { mm } & \begin{array}{l}\text { A measure of length } \\ \text { (approximately the } \\ \text { thickness of a piece of } \\ \text { card) }\end{array} \\ \hline \text { killimetre } & \begin{array}{l}\text { A large measure of } \\ \text { length - used to } \\ \text { measure distances } \\ \text { between places }\end{array} \\ \hline \text { length } & \begin{array}{l}\text { How long, how tall or } \\ \text { how far apart things } \\ \text { are }\end{array} \\ \hline \text { width } & \begin{array}{l}\text { The distance from } \\ \text { side to side }\end{array} \\ \hline \text { perimeter } & \begin{array}{l}\text { The distance around a } \\ \text { 2D shape }\end{array} \\ \hline \text { rectilinear } & \begin{array}{l}\text { A 2D shape whose } \\ \text { sides all meet at right } \\ \text { angles }\end{array} \\ \hline \text { An angle equal to 90 }\end{array}\right\}$
